**CLARK DONNA 8546 6Y3 | REG#20066332**

A premier foundation Donna Donor cow that we selected this fall from Clark Farms. She has the functionality and maternal qualities we strive for. She originates from the original Brooks Donna's that have laid a foundation for many front end programs around the world. She supports a beautiful level udder with perfect sized teats. We have a lot of confidence in this females ability to leave a great set of progeny in years to come. Selling a flush to bull of your choice!
